

Dear Valued Patient,

We hope this letter finds you well and enjoying your summer. We are excited to announce that in the Fall of 2024 Merrimack Dental Associates will be relocating to 170 South River Road Building II Suite 4 in Bedford, NH.

After over 40 years of being a tenant of St Joseph's Hospital we have been informed that we can no longer keep our lease with the hospital beyond the end of this year due to the hospital's future plans to demolish/renovate our existing building. This short notice of the need to relocate was given without regard to the difficulty of relocating a dental practice. After thoroughly exploring all options for a new location we were fortunate to find the space of a retiring dentist in the south end of Bedford, NH approximately 7 miles from our current location on the same stretch of road.

Our new location will give us the opportunity to expand our clinical care area to better serve our patients. Though relocating the practice out of Merrimack was never part of our plan, our team is looking forward to welcoming everyone to the new location.

It is our privilege to serve as your dental providers and look forward to the opportunity to continue caring for you in the same professional, compassionate, and friendly environment that we have for so many years. We are looking forward to having you join us for this next chapter at Merrimack Dental Associates.

Please visit our website and Facebook page for specific updates about our moving date as we get closer to the fall. Our staff will ensure everyone is made aware of when appointments begin at our new location.

Sincerely,

Dr Herod, Dr Antonsson & the entire team at Merrimack Dental Associates
